

My favorite season of the year

Everybody has a favorite season of the year. I like summer the most, because it brings us long-awaited holidays.

Bright sun, clear blue skies, long hot days are the main signs of the long-awaited summer. Nature is filled with the all sorts of iridescent colors: trees and bushes are dressed in lush green leaves, flowers delight with lush blooms and incredible aromas, and wild berries are poured with juice. All this is such a bewitching sight that we want to see, inhale the heady aroma without stopping and respite.

There are no classes in summer, and the holidays are three months long. During the summer holidays, we can fully enjoy the life: travel, swim on the beach, play football, basketball or badminton, ride a bike. There is a lot of time to read books and not just at the school. There is the time to sit at the computer, not to hurry play computer games. It is also beautiful in the yard; there is not a minute to lose! I can walk all the day, play football and volleyball with my friends. Me and my parents always go to the river on weekends. Even in the summer, my parents take a vacation from work, and we go to rest on the sea. In summer the water becomes warm and we swim and have funny sunbathe. I overeat with ice cream, many delicious and ripe berries, fruits and vegetables.

Walking through the seaside, I enjoy the magnificence of nature. The environment is great! It is important to learn to live in harmony with him. Paying attention to the beautiful world around us, I forget everything about the bad. I think it is very important to notice all that surrounds us. I endlessly admire the beauty of meadows and forests, with marvelous flowers. I am sure, there are new opportunities that are not available to us in winter, autumn or spring.

I spend this summer with my grandparents in the village. I visited the sea got out to the river and to the forest. They live not far from the town, so it didn't take long to get there. My grandparents have a large household, so I often help them. If grandma or grandpa doesn't need my help, then I go to the river for a long time. I have also many friends there. We had fun; we swam a lot, had sunbathe. I stayed in the village for about three weeks, and then returned home.

Then me and my parents went to rest on the sea. What is a summer vacation without the sea? We were very lucky with the weather. All the days that we spent on the sea coast were sunny. The water in the sea was warm. I didn't want to get out of it. We spent most of the day on the beach. We used to stay there until the evening. At the seaside we ate a lot of fresh and juicy fruits. We even went fishing,

caught a lot of delicious fish for dinner. We cooked them on the fire. It is the best summer holiday in my life.
